GRADUATING CLASS

# ***Survey of the Graduates 2022***

Each year, the Career Services department of SUNY Erie Community College produces a college-wide statistical analysis of its graduates to provide employment and transfer related outcomes. The results allow potential students the opportunity to see where SUNY Erie graduates go directly after graduation. It is also a valuable assessment tool for SUNY Erie faculty, administrators, school counselors, and the college's Board of Trustees. The Survey of Graduates serves as one method of measuring of how effective SUNY Erie is in fulfilling its overall mission.

The Career Services office initiated its contact of certified graduates approximately six months after graduation, based upon records provided by the college Registrar for the 2022 academic year. The department followed the best practices and standards of the National Association of Colleges and Employers (NACE). All graduates were contacted with survey questions via email and/or phone. In some cases when the graduate was unavailable, academic departments provided updated employment and transfer data. A comprehensive report from the National Student Clearinghouse was also utilized to gain valuable transfer data.

In place of the term “response rate” we use the term “knowledge rate” to recognize that data came from various sources. Of the 1825 degrees and certificates awarded in 2022, we had a knowledge rate of 77.7% for Associate Degree graduates and 85.9% for Certificate Program graduates. A college-wide summary sheet of both degree and certificate programs are provided at the end of this report.

For an overview of the survey results, please refer to the “SUNY Erie Class of 2022 Career and Transfer Outcomes” infographic at the beginning of the book, or continue reading for a program-by-program breakdown of the data. If you have any questions about the report, please contact the SUNY Erie Career Services department.

Sincerely,

**Katherine Marshall**, *Director of Career Services*  
SUNY Erie Community College
