Program Accomplishments

The swimming and diving program at Erie Community College has undergone a drastic change in the last few years. The program has thrived the last four seasons.

A steady improvement started four years ago when the team saw record numbers turn out for the team. In the 2005-06 season, the men's team finished second at the Region III meet and the women placed seventh.

This past year, the team hosted the NJCAA National swimming and diving championship. Both teams competed and brought home numerous All-American and honorable mention All-American awards.

The Kats swim teams compete in the Flickinger Aquatic Center.
