Re: Physical Education Curriculum Articulation

Canisius College has been advised of the new Erie Community College (ECC) Physical Education degree and we have worked out a detailed articulation with our BS program. As indicated on the SUNY Transfer Course Equivalency Table, ECC students will be awarded roughly 65 credits toward our Physical & Health Education degree and will be considered fully accredited juniors when they transfer to Canisius College.

The Department of Physical Education, Health Education, & Sports Studies are thrilled that ECC has taken the initiative to create a new program that will better prepare students in the field of physical education and health education and better prepare them for when they transfer to a four year school.

We commend you and wish you the best of luck in your program request, you have Canisius College's wholehearted support.

If you have any comment or need anything else from us, please do not hesitate to contact us.

Excellent work!

Sincerely,

Dr. James M. McDonnell
Associate Dean
