

SUNY **ECC** **START**

O R I E N T A T I O N

The START (Support Through Advisement, Registration, Transition) Program gives new and transfer students an overview of student support services, campus resources, and academic departments. Schedule and attend a START orientation to meet an advisor, register for your required classes, and learn all the information you will need to START strong and finish stronger.

START is mandatory for all new incoming students (including students transferring from other colleges or universities). START orientation programs are divisionally based. It is best to participate in a START session at the campus you plan to attend. In order to participate, students must be admitted, placement tested or waived. Students are not required to be registered given advisement and registration are part of the START program. Students must RSVP their attendance. START sessions are typically half a day, so plan to spend at least six hours preparing the path for your initial year at ECC, a path that will pave the way for your success and future at ECC!

Benefits

- Connect with classmates
- Learn about academic and support services
- Meet with your professors
- Register for classes
- Tour the campus and classrooms
- Get your questions answered
- Learn about campus activities

Please follow these instructions:

Step 1: Check your ECC START Orientation Letter for the Registration Form Link to schedule your START date and time

Step 2: Go Online to the Registration Form Link

Step 3: Reserve a spot at START by answering all of the questions in the Registration form

Step 4: After answering all of the questions, click “next” to submit your Registration Form Link
